## 4 Project Assignments

Title	Tata Tele Services Ltd(TTSL)
Customer	TTSL, Mumbai, Maharashtra, India.
Duration	3 years
Line of the business of the client	Telecommunication
About the Project	<p>TATA Teleservices Limited (TTSL) is one of India's leading private telecom service providers, having a pan-India presence across all of India's 22 telecom Circles. The company offers integrated telecom solutions to its customers under the Tata Indicom, Tata DOCOMO, Photon and Walky brands, and uses both the CDMA and GSM technology platform(s) for its wireless networks. Tata Teleservices Limited, along with Tata Teleservices (Maharashtra) Limited, operates in more than 325,000 towns and villages across the country. In November 2008, Tata Teleservices entered into an agreement with Japanese telecom major NTT DOCOMO, and this transaction marks a key step in the strategic evolution of Tata Teleservices Limited. Tata DOCOMO has so far launched GSM services in eight telecom Circles, and the remaining part of the country is also expected to be covered shortly. In December 2008, Tata Teleservices announced a unique reverse equity swap strategic agreement between its fully-owned telecom tower subsidiary—Wireless TT Info-Services Limited—and Quippo Telecom Infrastructure Limited, thereby becoming the largest independent entity in this space. Tata Teleservices' bouquet of telephony services includes mobile services, wireless desktop phones, public booth telephony and Wireline services. Activities in the project include, processing the customer data and transfer the data from one system to other system(like Point of Sale to Customer Relationship Management). It Mainly includes the integration of various systems within the project and also with the external platforms like LDAP,CRBT, Photon Music, Broadband AAA, HSIA,HLR.</p>
